SUMMARY

Motivated Frontend Developer with 2 years of hands-on experience building and maintaining responsive, high-performance web applications using React.js, Next.js, and Tailwind CSS. Proven track record of enhancing application speed and usability through strategic performance optimizations and collaborative UI/UX design. Skilled in translating complex requirements into clean, maintainable code with a strong focus on accessibility and user experience. Seeking a Frontend Developer position where I can make use of my expertise in HTML, Tailwind CSS, JavaScript, and TypeScript to deliver innovative design solutions, contribute to impactful projects, and support team excellence in a fast-paced development environment.

EXPERIENCE

Junior Frontend Developer

September 2023 - January 2025

- **PureJim Ltd** | Lagos, Nigeria

- Developed and maintained responsive web applications using React.js, Next.js, and Tailwind CSS.
- Collaborated with design teams to implement user-friendly UI/UX designs.
- Optimized web applications for maximum speed and scalability.
- Participated in code reviews, contributing to improved code quality and team knowledge sharing.
- Implemented Agile best practices to improve task prioritization and project flow in a continuous development cycle.
- Integrated RESTful APIs to support dynamic data rendering, enhancing user interaction by 30% through consistent cross-platform performance improvements on web applications.

Junior Frontend Developer

August 2023 - December 2023

- **Darey.IO** | Lagos, Nigeria

- Revolutionizing The Acquisition and Development of Technology Talent Through AI Powered Contextual Learning.
- I was an intern frontend developer and worked on the main website
 - Assisted senior developers in adding features and fixing bugs on the website
 - Mentored by senior developers, accelerating skill development in React.js and Angular through hands-on projects and collaborative problem-solving sessions.
 - Developed and deployed new interactive components using React.js, enhancing user engagement on the main website by 25% while ensuring seamless integration with back-end services and maintaining code efficiency.

PROJECT

EasySch School

Management System

September 2023 - Present

- **PureJIM LTD** | [//www.easysch.com/best-college/login](https://www.easysch.com/best-college/login)

- Developed and maintained responsive web applications using React.js, Next.js, and Tailwind CSS.
- Collaborated with design teams to implement user-friendly UI/UX designs.
- Optimized web applications for maximum speed and scalability.
- Participated in code reviews, contributing to improved code quality and team knowledge sharing.
- Worked in an Agile environment, attending daily stand-ups and contributing to sprint planning sessions.

AttendEASE

- **Personal**

- Engineered Attendease application to effectively monitor student attendance data leveraging React.js and Node.js technologies
- Integrated a dynamic reporting module in the AttendEASE system, enabling real-time analysis of attendance patterns and enhancing data-driven decision-making for educational institutions.
- Enhanced the AttendEASE platform by incorporating automated attendance reporting features, improving data accuracy and reducing manual processing time by .

Weather On The Go

- **Personal** | weather-on-the-go.netlify.app/
 - Engineered a weather forecasting website offering real-time updates for any place in the world.
 - Utilized modern frameworks to enhance 'Weather On The Go' application functionality, assuring seamless user interactions across multiple platforms.

Darey.IO
